How to install Office 365 ProPlus on iOS (iPad,iPhone)
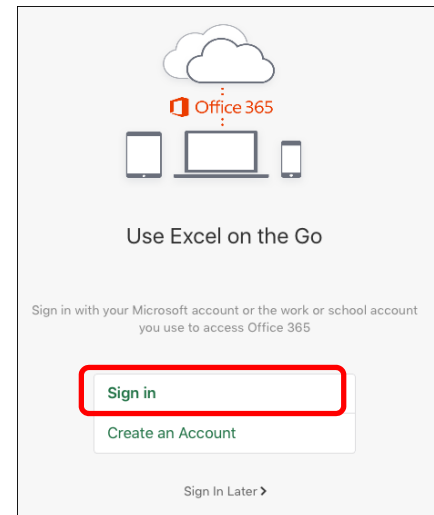

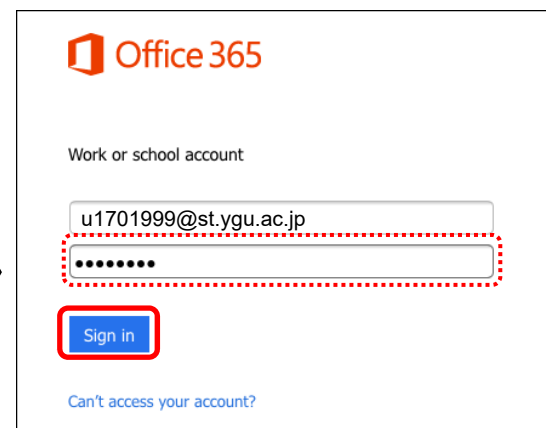

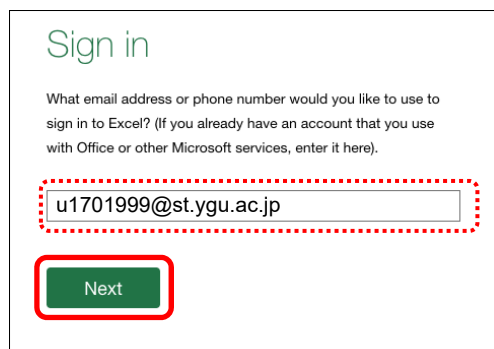

1. Install Word, Excel, Power Point application from the Apple Store.

2. Open Word or Excel or Power Point.
When the screen like the right is displayed, select **[Sign in]**.

3. When "Sign in" is displayed, enter **the mail address used to sign-in to Office365** and click **[Next]**.
Next, when the password input screen is displayed, **enter the password for sign-in to Office365**,
and click **[Sign in]**.

4. When "Get Notified" is displayed, select **[Turn on Notifications]**.
If ""Excel" Would Like to Send You Nortifications" is displayed, select **[OK]** (or permission)".
Finally, when "You're All Set" is displayed, select **[Create and Edit Documents]**.
(Installation and sign-in are completed.)
