Course Description	<p>The Seminar is an optional 1-credit course that counts toward the 124-credit graduation requirement and requires advisor approval for enrollment. Designed as a skill-building experience, it equips students with advanced research competencies across disciplines, including research design, methodological application, academic writing, critical analysis, and effective communication.</p> <p>The course supports students in conducting research within their Major, strengthening analytical and problem-solving abilities and preparing them for independent, high-quality research in both traditional and practice-based fields. Students who choose this pathway-whether to enhance their research skills or prepare for graduate school-must adhere to its structured requirements. Students approved for concurrent enrollment in both the Seminar and GRP must follow specific requirements outlined in Weeks 1 and 6.</p>

Active Learning Methods	Group Work/Presentation				
More details/supplemental information on Active Learning Methods	<p>Group Work: Students collaborate on tasks related to their research topics, fostering a deeper understanding of the subject matter and enhancing collaborative skills, which are crucial for conducting large-scale research projects.</p> <p>Presentation: Students present their research findings to the class, enhancing their ability to communicate complex ideas effectively and preparing them for the final presentation of their Graduation Research Project.</p>				
Use of ICT	UNIPA for communication purpose and the Office 365: It has Word for writing and PowerPoint for presentations.				
Contents of class preparation and review	<p># Weekly Assignments: Determined by the instructor.</p> <p># Research Tasks: Conduct preliminary research for your Graduation Research Project (GRP). This includes finding relevant literature, datasets, and methodologies that suit your chosen topic.</p> <p># Presentation Preparation: Prepare presentations outlining your research progress and findings for class discussions.</p> <p># Class Review: Reflect on Feedback: Carefully consider feedback given by the instructor and peers regarding your work. Discussion Points: Summarize key discussion points from the class and note new insights that could improve your research. Update Research Plan: Adjust your research plan as needed based on feedback and the seminar's direction. This could mean revising your research question, methodology, etc. Prepare for Next Steps: Identify what actions you need to take for the following week's seminar or to progress with your GRP (further research, proposal refinement, etc.).</p>	Hours expected to be spent preparing for class (hours per week)	1 hours	Hours expected to be spent on class review (hours per week)	1 hours
Feedback Methods	In the weekly meetings, students are expected to provide updates on their research progress to their instructor. If relevant, they should also share their progress with fellow Seminar students. Following each presentation, there should be concise discussions to delve into the presented material.				

Grading Criteria

<p>Plagiarism Policy</p>	<p>Plagiarism, fabrication, or falsification is dishonest. Plagiarism involves presenting another’s work as your own or submitting the same work for multiple assessments. Fabrication means making up data or results, and falsification involves manipulating existing data. If detected, these result in a failing grade (F) for the Seminar and may lead to additional sanctions under iCLA regulations. Students must review the “Plagiarism Guidelines” and complete the online Ethics course (https://www.aprin.or.jp/en/rse).</p> <p>This seminar follows the iCLA AI Policy (see iCLA Navi), categorizing AI use as Required, Allowed with Disclosure, or Prohibited. Specific rules for tasks such as the research proposal and presentations will be set by your advisor in Week 1 when you discuss the Seminar AI Policy together. Do not assume AI is permitted until this has been confirmed with your advisor, and always follow your advisor’s instructions and any required disclosure procedures when AI use is allowed.</p>
<p>Other Additional Notes (Outline crucial policies and info not mentioned above)</p>	<p>Other Policy:</p> <ol style="list-style-type: none"> 1. Advisor Consultation: Schedule regular meetings with your academic advisor for project guidance. 2. AI Policy Finalization in Week 1: In Week 1, each student and their advisor must review, confirm, and finalize the Seminar AI Policy. The agreed AI Policy will be officially recorded and will apply to this Seminar for the remainder of the semester. 3. Concurrent Seminar and GRP Enrollment: It is recommended to complete the seminar before starting your GRP. In exceptional cases, you may request concurrent enrollment, subject to iCLA Management review. 4. Extension Protocol: Extensions for documented hardships (for example, illness or bereavement) must be supported by evidence and requested at least 7 days before the deadline. For extreme unforeseen cases, contact your advisor and the Administrative Office immediately. Extensions for issues within student control are not allowed. The final decision is made by iCLA Management. 5. Communication: Use email for all seminar-related inquiries. 6. Late Submission Penalties: Without an approved extension: <ul style="list-style-type: none"> - Week 10 assignments: 5 percent deduction per day (up to 5 days). - Week 15 assignments: 10 percent deduction per day (up to 5 days). - More than 5 days late will result in a failing grade. <p>Important: For documented hardships, contact your instructor and the Administrative Office immediately.</p>
