	This course is designed to help students' smooth transition to the intermediate level by equipping students with more accurate and creative use of the language based on what they learnt at elementary level. It also aims at improving students' communication skills by focusing on informal/formal use of Japanese in situations, through oral/written practice and activities. Students will learn more complex grammatical structures at intermediate level, and will revise basic grammar combining more than two grammar items learnt previously in natural conversations.
	They will also learn and deepen their understanding of some aspects of Japanese culture simultaneously and make a presentation on their findings of the project which is conducted individually.
Course Description	Approximately 90% of class instruction and interaction will be conducted in Japanese with occasional English explanations when necessary.
	This course is for students who have completed Japanese 4 (JPNL114) / Elementary Japanese 3 (JPNL130) at iCLA or the equivalent level elsewhere. Students who have studied Japanese at other institutions must take the placement procedure to be qualified to take this course. Please refer to the information from the administration office regarding the placement procedure.
	It has always been an issue to bridge the gap between post-elementary level to intermediate level in JLP. This course has been created in order to bridge the gap and to prepare students for intermediate level of Japanese.
Class plan based on course evaluation from previous academic year	This class focuses on the actual use of the language, and makes students express their ideas in sentences with a logical discourse, which is required for intermediate level, not by a list of single sentences which is observed commonly in elementary level.
