THE AMBASSADOR

LN: 06/2023

Dear students,

On behalf of the Embassy of the Republic of Kosovo and on my own behalf, I am delighted to sincerely congratulate you on your graduation at your Yamanashi Gakuin University.

I know that this is a very important moment for you, your families, especially for your parents, who have invested a lot for you to succeed. Through the study, you have internationalized universal ethical values such as respect for the other, working in the community and the use of pure reason for solving problems, as the German philosopher Immanuel Kant would say.

I separated from my students a year ago to take the position of Ambassador of Kosovo to Japan. Every year I have experienced the emotions of my students, on the occasion of their graduation from the University of Pristina, and this Letter to you reminds me not only the joy of the students, but also the satisfaction of the professors for the success of their students. Therefore, together with you, I congratulate your professors, who I am sure are very proud about your success.

After graduation you will follow different paths: some of you will continue your studies further, others will start to work. Regardless, your future is more secure now than it was before you graduated. With this you have a secure future. Regardless of the path you will follow, you will keep the emotions for your university, the respect for your professors and the lessons learned.

Congratulating you once again on your success, I wish each of you health and a bright future.

Sincerely,

Prof. Ass. Dr. Sabri Kiçmari
Ambassador
